	Teat Size	4	3	0
				10

SMD Menkar Ceti classified 90 for this classification.

Menkar Ceti is a stylish cow with grace of movement that displays more angularity and pure dairy character than others in our herd. She carries excellent udder capacity, attachment and teat size and placement – typical of Big Mac progeny. Menkar Ceti is consistently producing high quality offspring (SMD Omega Navis, SMD Medea Navis) that carry forward her femininity and dairyness in udder while not diminishing beef qualities that we wish to combine in a functional dual purpose cow.
